Dear Sir/Madam:

This is to inform you that the Anthracite Regional Conservation Society intends to apply for a technical assistance grant. We intend to use any funds awarded under this program to obtain help in the interpretation of technical information relating to the cleanup of two Superfund sites affecting the upper reaches of the Little Schuylkill River in Schuylkill County, Pennsylvania. These sites are the McAdoo Associates Toxic Waste Dump in Kline Township and the Diversified Metals Dump in Rush Township. Please send an application and any other pertinent information to the above address. We intend to file our application in August, 1988.

Very truly yours,

Joseph A. Merson
Joseph A. Merson, President
